Section 2 - Policy

Travel arrangements

(3) As part of the University's commitment to sustainability and cost minimisation, staff should first consider alternative options to travel, including audio, central and desktop video conference facilities.

(4) University travellers are required to exercise prudent business judgement regarding travel to minimise expenses and financial costs to the University, including but not limited to:

- a. making their travel arrangements at the earliest opportunity to ensure best value for money and allow time for processing (see the [Travel Procedure](#) for best practice timelines), and
- b. complying with the University's expenditure principles and rules stated in the [Finance Management Policy](#).

(5) Travellers represent the University while travelling on University business and must:

- b. reflect the University's values and corporate social responsibilities in their actions, expenditures, and behaviours.

(6) All University travel requirements must be arranged through the University's travel management platform or via the Travel and Expense office within the Division of Finance.

(7) All travellers must comply with the Travel Policy and [Travel Procedure](#) in relation to University travel.

Travel approvals

(8) All travel is required to be approved by the authorised officer as per [Delegation Schedule C - Finance](#) via the University's travel management platform.

(9) University travel must not be undertaken until it has been approved, except where an auto-approval is granted by the Delegate and not required for:

- a. the University Secretary for members of Council
- b. the Chancellor for the Vice-Chancellor, or

Traveller risk, health and safety

(12) The University is committed to protecting the safety and wellbeing of all persons when travelling on behalf of the University.

(13) University travellers and supervisors must take a risk management approach to the planning, approving and undertaking of University travel:

- a. University travellers must be mindful of potential risks while travelling and act in a manner that will minimise the possibility of harm. All staff must make themselves aware of any restrictions relevant to their destination via the relevant state government and federal government websites.

(14) Travellers and approvers are responsible for checking the travel advice levels from when they start planning until their departure and during their travels, for both their destination and transit countries. - c. For travel by vehicle, the [Driver Safety Guidelines](#) must be followed.
- d. Supervisors and travellers must ensure the University is provided with details of the traveller's whereabouts at all times so that the University can contact the traveller and provide assistance in the event of an emergency or other incident. This will require the traveller to advise Travel and Expense of all accommodation whilst travelling internationally.
