Joint awards with a third party

(27) A joint award may be offered where Charles Sturt University and another university or equivalent award-conferring educational institution offer a program accredited by both the University and the other body.

(28) An award of the University can only be offered jointly where the third party is accredited to offer such an award in its own right and:

- b. the third party has accredited the award through its own and/or the relevant national accreditation processes.

(29) The University Secretary will approve the content and design of the testamur for a joint award. It will also need to meet the third party's requirements and any relevant national requirements for award documentation in the country where the third party is based.

Acknowledgement of third parties on Charles Sturt University award testamurs

(30) An award of Charles Sturt University may acknowledge the role of a third party in the delivery and/or curriculum of the course leading to the award, where the award is either:

(32) Normally only one third party will be acknowledged on the testamur.

Credit pathway agreements

(33) Where the University enters a credit pathway agreement with another institution, whereby students complete an award at the other institution and receive credit for it towards the University's award, then the University and the third party will each confer their own award.
