Section 3 - Policy

Classification of prizes, scholarships and grants

(5) The following is the preferred use of 'prize', 'scholarship' and 'grant' for all areas of the University under this

policy:

- a. A prize is typically a once only award of money, financial support or some other form of recognition such as a gift voucher, subscriptions, goods or an award certificate. Prizes are generally awarded on a competitive basis.
- b. A scholarship is typically a substantial award of money or other form of financial support to a student, to help them undertake or continue their studies, or undertake other academic activities.
- c. A grant is typically an award of money or financial support to a student for a specific purpose in relation to their studies or to enable the student to commence or continue their studies by relieving hardship. Grants are generally awarded based on meeting eligibility criteria, depending on the availability of funding.

(6) Notwithstanding clause 5, the terms may be used interchangeably for new or existing prizes, scholarships and grants, based on the target audience or donor expectations and subject to the appropriate approval authority.
