

Radiation Safety Procedure

Section 1 - Purpose

(1) The purpose of this document is to act as a placeholder for all procedures and other instruments used by Charles Sturt University (the University) to manage and oversee the use of radiation in teaching and other work.

Section 2 - Glossary

(2) Nil.

Section 3 - Policy

(3) The University has policies and procedures in place to ensure the safety of students and staff in the use of radiation in study and work. This includes the acquisition, handling, storage and disposal of radioactive substances, the use of irradiating apparatus and the safe use of non-ionising radiation.

(4) These policies and procedures include external compliance requirements, and are overseen by a [Radiation Safety Committee](#). Specific procedures and information relating to the activities involving radiation such as those listed above, can be found as associated information to this procedure.

Section 4 - Procedures

(5) Refer to the Associated Information page for this document (see link in grey menu at top of page).

Section 5 - Guidelines

(6) Nil.
