

# International Student Fee Refund Procedure

## Section 1 - Purpose

(1) This procedure supports the [Admissions Policy](#) and [Enrolment and Fees Policy](#) by stating:

- a. the conditions under which an international applicant for admission to a course at Charles Sturt University (the University) who does not take up their course may receive a full refund of tuition fees, or a partial refund, or no refund,
- b. the conditions under which an international student enrolled in a course at the University who withdraws from the course may receive a full refund of tuition fees paid in advance, or a partial refund, or no refund,
- c. the processes for applications for tuition fee refunds, and
- d. the avenue for students to appeal a decision to refund, partially refund or not refund students' tuition fees.

(2) This procedure is intended to ensure that the University complies with the [Education Services for Overseas Students Act \(ESOS\)](#) and its [associated regulations](#), the [Tuition Protection Service \(TPS\)](#), and the [National Code of Practice for Providers of Education and Training to Overseas Students](#).

(3) The University will determine refunds of tuition fees for international students in accordance with this procedure and the student's written agreement with the University. This procedure should be read alongside the written agreement, the [Admissions Policy](#) and the [Enrolment and Fees Policy](#).

### Scope

(4) The scope of this procedure is limited to applications for a refund of tuition fees for international students who were enrolled in (or applying for admission to) study within Australia on a student visa when the tuition fees were charged.

(5) The [Enrolment and Fees Policy](#) and [Enrolment and Fees Procedure](#) contain relevant information about tuition fees which applies to all students, including refund processes and requirements for non-resident and domestic students.

## Section 2 - Policy

(6) This procedure supports the [Admissions Policy](#) and [Enrolment and Fees Policy](#) and should be read alongside these documents and their relevant procedures.

## Section 3 - Procedure

### Termination of enrolment

(7) In certain circumstances, international students may be eligible for a full or partial refund of the tuition fees they have paid to the University for the teaching period in which their course enrolment was terminated before the relevant census date (via withdrawal or cancellation), and for future teaching periods in which the student has paid their tuition fees in advance (if any).

(8) Depending on the reason and timing of the student's termination of enrolment, different refund outcomes apply, as defined in the schedule of refund outcomes published in this procedure (see the tables below) for commencing and continuing international students.

### **Course withdrawal**

(9) International students are strongly encouraged to discuss any decision to withdraw from their course with the University before proceeding, as this will result in the cancellation of their enrolment in the relevant course, which may lead to the cancellation of their student visa.

(10) In order to withdraw from their course, international students must submit an online request for course withdrawal/cancellation using the University's [self-enrolment system](#), after which the University will cancel their confirmation of enrolment (COE) and report this change to the Commonwealth Government. International students must directly contact the [Department of Home Affairs](#) to discuss the impact this change in enrolment status will have on their student visa.

(11) International students seeking to change courses within this University are advised to submit their application for admission to study in their new course before submitting a request for course withdrawal. See the [Admissions Policy](#) and [Admissions Procedure](#) for information about applying for a new course at this University.

(12) Students seeking an approved letter of release from the University to transfer to another provider before completing the first six months of enrolment in their principal course must follow the process outlined in the [International Students Provider Transfer Procedure](#).

### **Subject withdrawal**

(13) International students should only apply for a refund of tuition fees where their course enrolment has been terminated (via withdrawal or cancellation), as continuing students who have withdrawn from one or more of their subjects before the relevant census date will automatically have those subject tuition fees applied as a financial credit towards their enrolment in future teaching periods. However, requests to have these credited subject fees returned to the applicant as a refund payment instead of being applied to future teaching periods may be considered on a case-by-case basis by the Director, Student Administration, based on compassionate or compelling circumstances.

(14) If a student has failed to enrol in any subjects or has withdrawn from all of their subjects by census date in any compulsory teaching period without prior University approval, this will be processed as a failure to enrol/re-enrol (as described in the [Enrolment and Fees Policy](#)) and any application for a refund will be assessed accordingly (as per the 'Cancellation of enrolment by the University' section of the refund schedules published in this procedure).

### **Refund applications**

(15) International students seeking a refund must follow the instructions outlined on the relevant refund application form and attach the required supporting documentation before submitting their request. The [International Refund Form](#) is available online at the following location:  
<https://study.csu.edu.au/international/how-to-apply/student-responsibilities>

(16) Applications for a refund of tuition fees must be submitted within 12 months from the end date of the teaching period for which the tuition fees were charged. Late applications may be considered on a case-by-case basis, by the Director, Student Administration, where there are compassionate or compelling circumstances. Examples of compassionate or compelling circumstances are outlined by the University in relation to [special consideration](#) requests, but each case is assessed on its individual merits, in accordance with the [National Code](#).

### **Refunds in special circumstances (before census date)**

(17) Where an international student withdraws from their course before census date in any teaching period due to

[special \(compassionate or compelling\) circumstances](#), they must provide sufficient supporting evidence of these circumstances to the University as part of their international application for a refund. Where the claim of special circumstances cannot be upheld by the University, the student will receive the appropriate scheduled refund amount as stated in the relevant table published within this procedure, based on the reason and timing of their withdrawal.

(18) See the [Enrolment and Fees Procedure](#) for information about applying for refunds for course or subject withdrawals after census date, where this was due to [special circumstances](#) outside of the student's control.

### **Refunds of OSHC payments**

(19) Where the University has organised Overseas Student Health Cover (OSHC) insurance on the student's behalf, international students must contact the University directly to apply for any refund of their OSHC fees, using the [International Refund Form](#) to submit their request.

(20) Where an international student has organised their own Overseas Student Health Cover (OSHC) while studying in Australia, they must directly contact their insurance provider for any refund of their OSHC fee payments.

### **Assessment of refund applications**

(21) International student refund applications are assessed in accordance with ESOS legislation requirements by either the International Admissions or International Enrolments team (depending on the student's visa status when their enrolment was terminated), using the scheduled refund outcome tables published within this procedure.

(22) The International Admissions team (within OGEP) assess refund applications for students who were either still waiting for the outcome of their student visa application when their course was terminated, or who have had their request for a student visa refused by the Commonwealth Government.

(23) Once an international student has been granted a student visa for their enrolment in a particular course at this University, any refund application submitted by the student for that course will be assessed by the International Enrolments team (within Student Administration).

(24) Where an international student's refund request involves any potential [special \(compassionate or compelling\) circumstances](#), or is outside of the scope of reasons/situations defined in the refund schedules published below, their application must be sent by the relevant team to the Director, Student Administration for a refund assessment decision.

(25) Once they have been assessed, approved refund applications are referred to the Division of Finance for processing, and every student will be notified of the outcome of their refund application in writing.

### **International student refund schedules**

(26) Throughout each table below, the timing column refers to the date on which the University receives the student's request to withdraw from their course (or subject), or the timing of the relevant incident that led to the termination of the student's enrolment.

#### **Refund schedule for commencing students**

(27) The following table of scheduled refund outcomes applies to commencing international students who are seeking a refund of tuition fees due to terminating their enrolment before completing their first teaching period of study in the relevant course.

| 5 | Approved release to transfer providers (before census date)<br>The University approves the student's application for a letter of release to transfer providers for any reason other than due to compassionate or compelling (special) circumstances, which was submitted by the student before census date in their first teaching period of enrolment in the course.  | Up to and including census date in the first teaching period of the course.                               | The University will retain 50% of the tuition fees charged for full-time enrolment in the first teaching period, and will refund the rest of the tuition fees that the student has paid for the first and any future teaching periods.  |
| 6 | Approved release to transfer providers (after census date)<br>The University approves the student's application for a letter of release to transfer providers, which was submitted by the student after the census date had passed for their first teaching period in the course.  | After census date in the first teaching period of the course, and before the next teaching period begins. | No refund of the tuition fees charged for full-time enrolment in the first teaching period.<br>Full refund of the rest of the tuition fees that the student has paid for any future teaching periods.   |

## Refunds after census date in special circumstances

(29) A student may apply for a refund of tuition fees beyond the limits stated in the refund tables above where they have been prevented from continuing or successfully completing their studies due to:

- [special circumstances](#) outside of their control, which
- did not make their full impact on the student until after the census date for the relevant teaching period.

(30) See the [Enrolment and Fees Procedure](#) for details about applying for refunds after census date due to [special circumstances](#).

## Payment of refunds

(31) The Division of Finance will normally pay approved refunds within four weeks of:

- receiving the refund request from the student, if no special circumstances are claimed, or
- an approved refund decision, if the student is claiming special circumstances that need to be assessed before their refund payment can be processed.

(32) Approved refunds will be paid in Australian dollars or equivalent to the nominated bank account of the authorised beneficiary.

(33) The University will not compensate the payer of the fees for any exchange rate changes or funds transfer costs.

## Appeals and complaints

(34) Where a student wishes to appeal a decision made under this procedure, or has a complaint about the quality of service or the conduct of staff, the following policies apply:

- a. [University Student Appeals Policy](#) and [University Student Appeals Procedure](#)
- b. [Complaints Management Policy](#) and [Complaints Management Procedure](#)

(35) If a student is not satisfied with the outcome of their internal appeal or complaint, they have the right to lodge an external appeal or complaint with the [NSW Ombudsman](#).

(36) The [Enrolment and Fees Policy](#) provides information about University decisions related to cancellation of enrolment, including the right for students to appeal these decisions before these outcomes can be finalised and reported to the Commonwealth Government.
