Appendix A

Our Ethos

The Wiradjuri phrase *yindyamarra winhanganha* means the wisdom of respectfully knowing how to live well in a world worth living in.

This phrase captures the essence of who we are at Charles Sturt. It comes from traditional Indigenous Australian knowledge and speaks to the mission of a university – to develop and spread wisdom to help create a better world.

Our Values

In living the value of Insightful we act respectfully and perceptively to seek to understand why people think and behave in the ways that they do. Digging deep to understand the 'why' in addition to the 'what', we shift beyond taking words or actions at face value.

Through an open-minded approach we reveal people's underlying attitudes, beliefs and motivations. An insightful approach means we remove ambiguity, we are each clear and agreed about our goals and actions, and we better position ourselves for success.

Focusing on outcomes and behaving in a consistent and constructive manner enhances our impact on those around us. As a community of impactful professionals, we are each thinking about how to best direct our efforts to secure results for our students and our communities.

We have an awareness of our own selves and the situations we work in. We value the individual roles of those around us in supporting our students and communities. Taking learnings from each of our experiences, we have the gumption and tenacity to find a way past difficulties and obstructions.

Involving others – being welcoming and accessible – enables us to be a stronger collective force. As a university, we aim to be easy, warm and welcoming. We want our students and our peers to know they are important to us. Education and research benefits everyone in our community and our University is stronger when we work together.

In behaving inclusively we work collaboratively to develop and deliver solutions – we value new perspectives. An inclusive approach influences the way we all relate to each other and helps us all achieve our full potential collectively.

Creative in our thinking, yet rigorous in our approach, we drive and lead change and evolution. Through living the value of "inspiring" we engage and motivate our students and communities to also proactively build innovation and capacity into their lives, careers and industries.

We challenge those around us to leave their comfort zones and support and foster their growth and evolution. We are champions of change with compelling visions and we engage those around us in shaping the journey. Living this important value creates engagement and commitment from those around us.
